## **TekLinks Named to the VAR Business 500 List**

[TekLinks](#), a regional I.T. services provider headquartered in Birmingham, Alabama, announced today that it has been named to Everything Channel's VAR Business 500 list for a third consecutive year. TekLinks rounds out the 2010 list at number 373 climbing 53 spots from the previous year. Each year, Everything Channel's VAR Business magazine recognizes the top 500 IT Companies in North America that bill themselves as IT consultants, solution providers, traditional resellers and vendor services arms.

Mike Girouard, Vice President of Sales stated: "TekLinks is honored to be recognized as one of the top IT resellers in the country by VAR Business. 2009 was a difficult year for the IT industry, yet TekLinks was able to sustain growth where many suffered huge losses or had to close the doors. Improvement of our VAR Business 500 ranking is an important indicator that our clients maintain the highest opinion of our portfolio offerings, the quality of our services and the focus of our business plan."

David Powell, Vice President of Managed Services, attended the VAR Business 500 Awards Ceremony in New York on June 8, 2010, on behalf of TekLinks. He remarked, "TekLinks is honored to be recognized by CRN on the VAR Business 500. As we accept this award in New York City, we would like to recognize the entire TekLinks staff that helped achieve this recognition. During the admittedly difficult economic times of the past year, TekLinks was able to grow and improve its ranking on this prestigious VAR500 list. By focusing on our core business, making significant investments in our managed services practice and retaining our highly-skilled workforce, TekLinks is happy to receive this award and looks forward to continued growth in the market."

### **About TekLinks**

TekLinks is a leading provider of IT and Managed Services in the Southeast. TekLinks partners exclusively with market leaders that are the dominant players in their respective fields-- Cisco, Microsoft, EMC, Citrix, and VMWare. Additionally, TekLinks has leveraged their technical expertise to develop a managed services practice that offers a full range of managed offerings, from desktop support to data center services. TekLinks is committed to leading the market in technical excellence and next generation managed services.

**TekLinks, We Know IT.**
